

# Coil Marking & Labelling

## Identify your needs

To secure traceability of your products, a legible identification is applied. Tebulo coil identification robotics are designed to mark coils from low product temperatures up to red hot product temperatures. By using dot matrix, inkjet, single nozzle or label application systems, products are clearly marked early in the manufacturing process and remains readable throughout all stages.

## Reliability you wish you had sooner

With over 176 coil identification machines delivered to renowned companies in the industry, with an operation performance of almost 100%, Tebulo robotic solutions will make the most challenging areas of your plant the most reliable. Downtime in any plant is expensive and today it's far too costly for businesses to cut into profits. You can rely on Tebulo to keep you moving forward.

## Flexible integration

Tebulo robotic solutions are engineered for fertility. We understand the varying needs of the industries we serve and our products are designed for the flexibility to integrate into, even the most demanding environments. We have the expertise to find the most efficient, economical and productive way to get robotics working for your business.

## Innovation that pays

Ensure your fully automatic coil identification operations are best in class by implementing our Industry 4.0 solutions.

- ✓ Secured traceability
- ✓ Hot coil marking
- ✓ Cold coil marking
- ✓ Paint single nozzle marking
- ✓ Ink single nozzle marking
- ✓ Dot matrix marking
- ✓ Data matrix marking
- ✓ Laser etched marking
- ✓ Circumference labelling
- ✓ Coil eye labelling
- ✓ Strapped labelling
- ✓ Live machine status check
