

## Manual Strap Winding

### A winding solution

Straps that have been removed from a product are often long and flung. To improve labour conditions, the manual strap winding machine processes loose straps into a compact package of scrap material. This allows efficient container filling and prepares straps for recycling.

### Flexible integration

Tebulo solutions are engineered for fertility. We understand the varying needs of the industries we serve and our products are designed for the flexibility to integrate into, even the most demanding environments. We have the expertise to find the most efficient, economical and productive way to get vision working for your business.

### Benefits

- ✓ Fully automatic strap winding
- ✓ Safe operation
- ✓ High reliability
- ✓ Process sealed and welded straps
- ✓ Suitable for circumferential and coil eye straps
- ✓ Efficient container filling
- ✓ Pneumatic operation
- ✓ Low maintenance
- ✓ Simple controls
